# LETTER OF TRANSMITTAL

Sacramento, California
August 20, 1953

The Honorable Ben Hulse, *Chairman*
and Members of the Joint Legislative Budget Committee
State Capitol, Sacramento, California

Gentlemen: In September of 1948 this office issued a printed report entitled: "California Special Legislative Committees and Their Reports, a Survey and Index, 1937-1947." That report represented an effort to compile for the first time a complete listing of all legislative interim committees created during the 10-year period, together with a citation to the resolution or other authority creating the committee and a statement of the scope of the committee's activity and appropriation. In November of 1951 this report was revised and brought up to date to include committees created by and those reporting to the 1951 General Session. A supplement issued in June, 1952, added interim committees and reports for the 1952 Budget Session.

The report which is transmitted herewith is both a revision of and a supplement to the original report. With the exception of introductory notes and general summaries as to types of committee activities, full information contained in the original report is reproduced here for interim committees dating from 1937, and, in addition, carried forward chronologically to and including the 1953 General Session.

For the General Sessions of 1951 and 1953 the list also includes special committees authorized to act during the session and during the constitutional recess but which terminate at the end of the session. It has not been feasible to include the same listing of special committees for sessions prior to 1951.

Information relating to each committee, whenever available, includes the resolution numbers providing its legal authority, number of members and the chairman, a statement of the scope of the committee's activities, appropriations made available to it, and a listing of its printed reports. The serial numbers which have been assigned to each committee and which appear in the left-hand margin of the page are for the purpose of facilitating indexing and cross-referencing, and have no significance otherwise. The reports listed were found either in the Senate and Assembly Daily Journals or in the State Library or the library of the University of California. Also included are those committees authorized in 1935-36 which issued reports in 1937.

As an aid to the use of this report, two types of index have been prepared. The first index, entitled "Index of Legislative Committees," is an index by which each separate committee is listed alphabetically according to its title or the name by which it was or is commonly called. The second index is a more complete subject index. In the preparation of the latter, regard was given to various subjects reported by one committee, with cross reference to other committees reporting on a given subject. The chief abbreviations used are as follows:

### KEY TO ABBREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

* Report printed as separate document.

A reference such as: HR 62, 1947, means House Resolution No. 62, passed during the Regular Session of the Legislature in 1947.

Resolutions passed by extraordinary sessions are noted as follows: HR 67, 1st Ex. Sess., 1940.

A reference such as: * *Report.* AJ April 1, 1947, p. 20-30, means the report was printed as a separate document as well as appearing in the Assembly Journal of April 1, 1947 Session, on pages 20 to 30.

Respectfully submitted,

A. Alan Post
Legislative Auditor

# LETTER OF TRANSMITTAL

SACRAMENTO, CALIFORNIA, October 6, 1955

THE HONORABLE BEN HULSE, *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

GENTLEMEN: In September of 1948 this office issued a printed report entitled: "California Special Legislative Committees and Their Reports, a Survey and Index, 1937-1947." That report represented an effort to compile for the first time a complete listing of all legislative interim committees created during the 10-year period, together with a citation to the resolution or other authority creating the committee and a statement of the scope of the committee's activity and appropriation. In November of 1951 this report was revised and brought up to date to include committees created by and those reporting to the 1951 General Session. A supplement issued in June, 1952, added interim committees and reports for the 1952 Budget Session. Subsequent lists in 1953 and 1954 brought the report up to date through the Budget Session of 1954. Thus, the 1953 report and its 1954 supplement included all interim committee authorizations and reports for the period from 1937 to 1954.

Since the 1953 report and its 1954 supplement are still in print and are available through this office and through libraries, the report which is transmitted herewith has been confined to a listing of interim committees (1) reporting to, and (2) created by the 1955 General Session of the Legislature. It is planned to follow this procedure in subsequent biennial reports and to list in 1957 the interim committee reports made to the 1956 and 1957 Sessions and interim committees created by the 1957 Session. Although each committee has a limited existence, terminating usually at the end of the General Session following its creation, there are a large number which have had a continuity of program covering several sessions. This continuity has usually resulted from the adoption of resolutions which are similar to those creating a previous interim committee, or a continuation of the same chairman, or both. These committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report.

Information relating to each committee, whenever available, includes the resolution numbers providing its legal authority, number of members and the chairman, a statement of the scope of the committee's activities, appropriations made available to it, and a listing of its printed reports. No reconciliation between the amount appropriated and that actually spent by the committee has been attempted. The serial numbers which have been assigned to each committee and which appear in the left-hand margin of the page are for the purpose of facilitating indexing and cross-referencing and have no significance otherwise. The reports listed were found either in the Senate and Assembly Daily

Journals or in the State Library or the library of the University of California. Most of the reports have been printed by the State Printing Office and issued as separate reports.

As an aid to the use of this report the committees have been arranged in alphabetical order by House and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

# LETTER OF TRANSMITTAL

SACRAMENTO, CALIFORNIA, OCTOBER 18, 1957

THE HONORABLE ARTHUR H. BREED, JR., *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

GENTLEMEN: In September of 1948 this office issued a printed report entitled: ''California Special Legislative Committees and Their Reports, a Survey and Index, 1937-1947.'' That report represented an effort to compile for the first time a complete listing of all legislative interim committees created during the 10-year period, together with a citation to the resolution or other authority creating the committee and a statement of the scope of the committee's activity and appropriation. In November of 1951 this report was revised and brought up to date to include committees created by and those reporting to the 1951 General Session. A supplement issued in June, 1952, added interim committees and reports for the 1952 Budget Session. Subsequent lists in 1953 and 1954 brought the report up to date through the Budget Session of 1954. Thus, the 1953 report and its 1954 supplement included all interim committee authorizations and reports for the period from 1937 to 1954.

Beginning with 1955 the preparation of this list has been on a biennial basis, with a report dated October, 1955, listing all committees created for reporting to the 1954 and 1955 Sessions of the Legislature and committees created by the 1955 Session. The report which is transmitted herewith follows the same procedure and is in two parts: (a) committees created by the 1955 Session, or by the 1956 Budget and Special Sessions, for reporting to the 1957 Session, together with a record of their reports, and (b) committees authorized by the 1957 Session for reporting to a subsequent session.

Although each committee has a limited existence, terminating usually at the end of the general session following its creation, there are a large number which have had a continuity of program covering several sessions. This continuity has usually resulted from the adoption of resolutions which are similar to those creating a previous interim committee, or a continuation of the same chairman, or both. These committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report. The list also includes committees created on a continuing basis which have interim committee powers.

Information relating to each committee, whenever available, includes the resolution numbers providing its legal authority, number of members and the chairman, a statement of the scope of the committee's activities, appropriations made available to it, and a listing of its printed reports. No reconciliation between the amount appropriated and that actually spent by the committee has been attempted. The serial numbers which have been assigned to each committee and which appear in the left hand margin of the page are for the purpose of facilitating indexing and cross-referencing and have no significance otherwise. The reports listed were found either in the Senate and Assembly Daily Journals or in the State Library or the library of the University of California. Most of the reports have been printed by the State Printing Office and issued as separate reports.

As an aid to the use of this report the committees have been arranged in alphabetical order by House and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

## KEY TO ABBREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

* Report printed as separate document.

A reference such as: HR 62, 1957, means House Resolution No. 62, passed during the Regular Session of the Legislature in 1957.

Resolutions passed by extraordinary sessions are noted as follows: HR 67, 1st Ex. Sess., 1956.

A reference such as: * *Report.* AJ April 1, 1957, p. 20-30, means the report was printed as a separate document as well as appearing in the Assembly Journal of April 1, 1957 Session, on pages 20 to 30.

Copies of interim committee reports are available on loan from the State Library in Sacramento and, in the case of most of those printed as separate documents, available through the respective mail rooms of the Senate and the Assembly, or by inquiry addressed to the chairman of the committee.

Respectively submitted,

A. Alan Post

# LETTER OF TRANSMITTAL

SACRAMENTO, CALIFORNIA, OCTOBER 1, 1959

THE HONORABLE GEORGE MILLER, JR., *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

GENTLEMEN: This report continues a series started in September, 1948, which lists and indexes all interim legislative committees and interim committee reports from 1937 to date. Prior to 1955 the indexes and their supplements were cumulative from 1937. Beginning with 1955 the indexes have been on a biennial basis. Thus, a complete record of interim committee reports from 1937 may be obtained by reference to the 1953 report plus its 1954 supplement and the three biennial reports dated 1955, 1957 and 1959.

The report which is transmitted herewith follows the same procedure as the two previous reports and is in two parts: (a) committees created by the 1957 session or by the 1958 budget and special sessions for reporting to the 1959 session, together with citations to their reports, and (b) committees authorized by the 1959 session for reporting to a subsequent session.

Although each committee has a limited existence, terminating usually at the end of the general session following its creation, there are a large number which have had a continuity of program covering several sessions. This continuity has usually resulted from the adoption of resolutions which are similar to those creating a previous interim committee, or a continuation of the same chairman, or both. These committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report. The list also includes committees created on a continuing basis which have interim committee powers.

Information relating to each committee, whenever available, includes the resolution numbers providing its legal authority, number of members and the chairman, a statement of the scope of the committee's activities, appropriations made available to it, and a listing of its printed reports. It should be noted that no reconciliation between the amount appropriated and that actually spent by the committee has been attempted. The serial numbers which have been assigned to each committee and which appear in the left hand margin of the page are for the purpose of facilitating indexing and cross-referencing and have no significance otherwise. The reports listed may be found either in the Senate and Assembly Daily Journals, their supplements, or in the State Library. Most of the reports have been printed by the State Printing Office and issued as separate reports.

As an aid to the use of this report, the committees have been arranged in alphabetical order by house and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

## KEY TO ABREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

Copies of interim committee reports are available on loan from the State Library in Sacramento and, in the case of most of those printed as separate documents, available through the respective mail rooms of the Senate and the Assembly, or by inquiry addressed to the chairman of the committee.

Respectfully submitted,

A. ALAN POST
Legislative Analyst

# LETTER OF TRANSMITTAL

SACRAMENTO, CALIFORNIA, October 1, 1961

THE HONORABLE GEORGE MILLER, JR., *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

GENTLEMEN: This report continues a series started in September, 1948, which lists and indexes all interim legislative committees and interim committee reports from 1937 to date. Prior to 1955 the indexes and their supplements were cumulative from 1937. Beginning with 1955 the indexes have been on a biennial basis. Thus a complete record of interim committee reports from 1937 may be obtained by reference to the 1953 report plus its 1954 supplement and the four biennial reports dated 1955, 1957, 1959 and 1961.

This report follows in general the same procedure as the previous biennial reports and is in two parts: (a) the committees created or continued by the 1959 General Session or by the 1960 Budget and Special Session for reporting to the 1961 Session, together with citations to their reports, and (b) committees authorized or continued by the 1961 Session.

Although committees are created or continued by the action of each session of the Legislature, the policy in recent years is to establish committees in such a manner as to provide continuity of program. Illustrative of this is the creation of thirteen permanent fact finding committees by Senate Rule 12.5, and the policy of the Assembly to create standing committees as interim committees. Committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report. The list also includes committees, boards and commissions having legislative members and which are created on a continuing basis.

Information relating to each committee, whenever available, includes a reference to its legal authority, number of members and the chairman, a brief statement of the scope of the committee's activities and a listing of its printed reports. This report for the first time omits information relative to appropriations or allocations made available to the various committees. This information seems inappropriate for an index of this nature as it is often misleading because (1) investigative responsibilities of these committees go beyond the issuing of formal reports, and (2) actual expenditures are often substantially below the appropriations or allocations to the various committees. The serial numbers which have been assigned to each committee are for the purpose of facilitating indexing and have no significance otherwise. The reports listed may be found either in the Senate and Assembly Daily Journals, their supplements, or in the State Library. Most of the reports have been printed by the State Printing Office and issued as separate reports.

As an aid to the use of this report, the committees have been arranged in alphabetical order by house and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

## KEY TO ABBREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

Copies of interim committee reports are available on loan from the State Library in Sacramento and, in the case of most of those printed as separate documents, available through the respective mail rooms of the Senate and the Assembly, or by inquiry addressed to the chairman of the committee.

Respectfully submitted,

A. Alan Post
Legislative Analyst

# LETTER OF TRANSMITTAL

Sacramento, California, October 21, 1963

The Honorable George Miller, Jr., *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

Gentlemen: This report continues a series started in September 1948 which lists and indexes all interim legislative committees and interim committee reports from 1937 to date. Prior to 1955 the indexes and their supplements were cumulative from 1937. Beginning with 1955 the indexes have been on a biennial basis. Thus a complete record of interim committee reports from 1937 may be obtained by reference to the 1953 report plus its 1954 supplement and the biennial reports dated 1955, 1957, 1959, 1961 and 1963.

This report follows in general the same procedure as the previous biennial reports and is in two parts: (a) the committee created or continued by the 1961 General Session or by the 1962 Budget and Special Sessions for reporting to the 1963 Session, together with citations to their reports, and (b) committees authorized or continued by the 1963 General and Special Session.

Although committees are created or continued by the action of each session of the Legislature, the policy in recent years is to establish committees in such a manner as to provide continuity of program. Illustrative of this is the creation of thirteen permanent fact finding committees by Senate Rule 12.5, and the policy of the Assembly to create standing committees as interim committees. Committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report. The list also includes committees, boards and commissions having legislative members and which are created on a continuing basis. These are included for the reason that, in most instances, the legislative members of boards or commissions are authorized to act as interim legislative committees.

Information relating to each committee, whenever available, includes a reference to its legal authority, number of members and the chairman, a brief statement of the scope of the committee's activities and a listing of its printed reports. In case there have been changes in the chairmanship during the interim, both are indicated in order of service. This report, as did the 1961 report, omits information relative to appropriations or allocations made available to the various committees. This information seems inappropriate for an index of this nature as it is often misleading because (1) investigative responsibilities of these committees go beyond the issuing of formal reports, and (2) actual expenditures are often substantially below the appropriations or allocations to the various committees. The serial numbers which have been assigned to each committee are for the purpose of facilitating indexing and have no significance otherwise. The reports listed may be found either in the Senate and Assembly Daily Journals, their supplements, or in the State Library. Most of the reports have been printed by the State Printing Office and issued as separate reports.

As an aid to the use of this report, the committees have been arranged in alphabetical order by house and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

## KEY TO ABBREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

Copies of interim committee reports are available on loan from the State Library in Sacramento and, in the case of most of those printed as separate documents, available through the respective mail rooms of the Senate and the Assembly, or by inquiry addressed to the chairman of the committee.

Respectfully submitted,

A. Alan Post
Legislative Analyst

# LETTER OF TRANSMITTAL

Sacramento, October 1, 1965

THE HONORABLE GEORGE MILLER, JR., *Chairman*
*and Members of the Joint Legislative Budget Committee*
*State Capitol, Sacramento, California*

GENTLEMEN:

This report continues a series started in September 1948 which lists and indexes all interim legislative committees and interim committee reports from 1937 to date. Prior to 1955 the indexes and their supplements were cumulative from 1937. Beginning with 1955 the indexes have been on a biennial basis. Thus a complete record of interim committee reports from 1937 may be obtained by reference to the 1953 report plus its 1954 supplement and the biennial reports dated 1955, 1957, 1959, 1961, 1963 and 1965.

This report follows in general the same procedure as the previous biennial reports and is in two parts: (a) the committees created or continued by the 1963 General Session or by the 1964 Budget and Special Sessions for reporting to the 1965 session, together with citations to their reports, and (b) committees authorized or continued by the 1965 General and Special Sessions.

Although committees are created or continued by the action of each session of the Legislature, the policy in recent years is to establish committees in such a manner as to provide continuity of program. Illustrative of this is the creation of 13 permanent factfinding committees by Senate Rule 12.5, and the policy of the Assembly to create standing committees as interim committees. Committees which have had a more or less continuous program can be traced chronologically through the use of the subject index in each report. The list also includes committees, boards and commissions having legislative members and which are created on a continuing basis. These are included for the reason that, in most instances, the legislative members of boards or commissions are authorized to act as interim legislative committees.

Information relating to each committee, whenever available, includes a reference to its legal authority, number of members and the chairman, a brief statement of the scope of the committee's activities and a listing of its printed reports. In case there have been changes in the chairmanship during the interim, both are indicated in order of service. The serial numbers which have been assigned to each committee are for the purpose of facilitating indexing and have no significance otherwise. The reports listed may be found either in the Senate and Assembly Daily Journals, their supplements, or in the State Library. Most of the reports have been printed by the Office of State Printing and issued as separate reports.

As an aid to the use of this report, the committees have been arranged in alphabetical order by house and a combined index covers both the identifying name of the committee and the subject of its reports. The names of committee chairmen have been included in the index. The chief abbreviations used are as follows:

## KEY TO ABBREVIATIONS

| | | | |
|---|---|---|---|
| AB | Assembly Bill | SB | Senate Bill |
| ACR | Assembly Concurrent Resolution | SCR | Senate Concurrent Resolution |
| AJ | Assembly Journal | SJ | Senate Journal |
| HR | House Resolution | SR | Senate Resolution |

Copies of interim committee reports are available on loan from the State Library in Sacramento and, in the case of most of those printed as separate documents, available through the respective mail rooms of the Senate and the Assembly, or by inquiry addressed to the chairman of the committee.

Respectfully submitted,

A. Alan Post
Legislative Analyst
